

Solution Spotlight

Creative Health Care Management continues to partner with organizations in preparing to organize, write, and submit Magnet® documents. We are as committed as ever to review and give you expert document feedback as you and your team write and address the Sources of Evidence from the 2019 Magnet® Application Manual.

Our team is proud to boast our continued 100% success rate for organizations who have partnered with CHCM for comprehensive document support, and since 2016, the majority of clients proceed straight to site visit.

We share our expertise in all phases: pre-application, application, document submission, site visit preparation, and year-after-plan with you. Please call on us with your needs specific to your organization.

We like to say, “we are a phone call or email away.”
