

## Shared Governance Strategies that Work Workshop

In January we hosted another highly successful Shared Governance Strategies that Work workshop. Participants included all levels of nursing leaders, shared governance council chairs/co-chairs, MPDs, and council members from organizations who are just implementing shared governance, those who were looking to strengthen their current structures, process and outcomes, to those who have had shared governance in nursing for many years and are now looking to expand to an interprofessional and whole organization shared governance culture.

Here are just a few comments from the participants:

Excellent information and presentation.

Excellent program, I felt heard and appreciated hearing from others.

The days flew by. You kept it upbeat and fun.

Both of your personalities work great with this workshop.

Outstanding workshop! Can you come to our organization to do this?
